
Missing anti-influenza medicines have been supplied today in Burgas

After multiple conversations of the Governor Valcho Cholakov with the health institutions because of the lack of drug quantities in Burgas region and even in the depots of Ministry of Health today Clinics, Emergency ward, Medical centers, Multiprofile Burgas Hospital and the Pulmonary Hospital will have at their disposal 400 packings of missing medicine for influenza treatment. Patients with acute respiratory diseases will get the medicine for free by the decision of the physician.

The Regional Pandemic Staff will decide on Friday if the undertaken preventive actions have to be continued.
