

---

The situation in Burgas is getting back to normal. In some settlements in the area the electricity supply is cut off. Because of the strong wind yesterday there are still problems in the electricity supply in Kraymorie, Marinka, Balgarovo, Bratovo and Ravnets in Burgas municipality. Teams of EVN work on failures elimination in Gaberovo, Pomorie municipality; Emona, Nesebar municipality; Velika, Tsarevo municipality. These problems are expected to be solved till noon today.

In direction Varna – Burgas there is a restriction solely between Aheloy and Pomorie – alternate route is through Kableschkovo; and in the opposite direction from Burgas to Varna the road is open with no restrictions. Closed stays also the road Zidarovo – Dimchevo, Sozopol municipality and the encircling movement is through Izvor. There are also difficulties in the traffic in the area of Priseltsi. Still closed is the road Aytos – Provadiya.

The Port of Burgas and Burgas Airport are open.

The duty officer in Burgas Regional Administration has not received information about people in distress. To Burgas Municipality yesterday have been sent over 300 warnings. 96 of them are because of fallen tree-branches and broken wires, 6 – for cars damaged by tree-branches, 59 – for fallen roof parts, 17 – for damaged billboards. There are scores of warnings about floated houses. Teams of Burgas Municipality and the maintenance companies continue to eliminate the consequences. Today a commission starts to list the damages caused. To the present moment the partial disastrous situation in Burgas municipality is still effective.
