
I came to know in a deep sorrow about the severe loss of Dr Kancho Marangozov. Having been a man who devoted an immense part of his life to the Burgas healthcare, Dr Marangozov is sticking in our memories and hearts with his professionalism, honesty and erudition.

The Bulgarian public healthcare needs examples like him to motivate young specialists and teach them that medicine is not only a profession but a vocation, self-denial and mission.

Let's honour his memory!

VALCHO CHOLAKOV

Governor of Burgas Region
