

---

The initiatives of life and health protection of children who take part in the road traffic should not be only restricted in the official announced Road safety week, Deputy Governor Vladimir Krumov suggested. Burgas Regional Education Inspectorate prepared on his insistence a schedule of measures to be held periodically in the schools of the 13 municipalities in Burgas Region.

The first of an event consecution has been held in the Professional Agriculture Mechanization and Electronics High School in Sredets. In a contest the jury of teachers estimated the pupils' knowledge about road traffic rules. Transition of level, pulling of a car after failure, identification of road signs for drivers and pedestrians, giving first aid in accident – these were only a part of the questions answered by the teams. In the school yard a lesson in safe driving was conducted.
