

---

A commission appointed by order of the Governor Valcho Cholakov will ascertain malpractices in address registering in the municipalities of Burgas Region. The controls will be started in Sredets municipality after a warning received in the Regional Administration expressing doubts about breach of the Law of civil registration. Governor's experts together with the Regional Directorate of the Ministry of Internal Affairs will ascertain the civil files registered from 01.01.2015 till 30.04.2015 and will check up if all necessary documents are available. According to the Law the Governor is empowered to exercise control and to undertake punitive measures. Information has been requested from Nesebar Municipal administration after another warning.

By virtue of Bulgarian legislation address registration has to be performed by the mayor as well as by servants appointed by him. An address registration is legitimate when those who wish to receive an address present a document of ownership or of benefit as well as written agreement of the owner
