

---

The initial inspections of the 13 beaches let out by the Governor of Burgas Region have been concluded. In contrast to other years the disturbances found by the inspectors this year are significant less.

A commission appointed with an order of Valcho Cholakov and including representatives of various institutions – Regional Health Inspectorate, Maritime Administration, Bulgarian Red Cross, Regional Directorate of the Ministry of Internal Affairs – visited the beaches in a two-week period, got acquainted with their situation and issued instructions for elimination of the negligences within 14 days. All inspected beaches are secured by life-guards, cleaned and deparasitated. Exceptions are the places without arranged medical services and with no appointed medics as well as those that did not provided 50 % free zone.

Vaya River beach in Nesebar municipality and Tsarevo – Vasiliko have fulfilled all contractual terms. At Governor's order from this year on the inspections on the beaches will be carried out more often than twice. Also by order of the Governor a twenty-four-hour telephone is indicated in the website of Burgas Region Administration for the citizens to give warnings about found irregularities.

After expiration of the 14 days period the commission will visit again all beaches and if the instructions are not fulfilled sanctions will be used.

Full list of the inspected beaches as well as the telephone contact numbers can be found on following link:
