

---

Burgas Regional Administration will join the most popular voluntary initiative in the country again this year. "Let's clean up Bulgaria together" is carried out with the support of the Ministry of Environment and Waters as a part of the Global Civil Movement [Let's Do It World](#).

The long-term goal of the initiative is to change the sense and attitude of people to places where they live as well as the way they take care of their waste.

The Day of the large-scale clean-up in 2016 is 4 June. The decision of choosing the date is caused by the wish to meet the World's Environment Day 5 June in a more clean Bulgaria.

Burgas Regional Administration will be again a partner of this year's initiative and will arrange its carrying out in the region.

The employees of the administration will clean the Boris Garden (from the side of Tsar Kaloyan Street) in Burgas. Beginning hour – 9 a.m. All citizens and organizations who wish to take part in the cleaning are welcome.
